

- ★ Over 50 years in the business.
- ★ Australian-owned company.
- ★ Many Ex-stock items & locally manufactured
- ★ Economically priced products.
- ★ Free on-going product & application support.
- ★ Rapid personal service and phone support.
- ★ Simple to use, proven products.
- ★ Flowmeter and process control specialists.

MRTU6 resettable flowmeters

- Slip Insertion paddlewheel type.
- LCD with **Rate & total** in Ltrs or KL, optional closing lid resets count.
- for water transfers.
- sizes 20-500 mm.
- Multiple pipe types.
- ±2.5% accuracy.
- Internal Lith-battery (10+ yr batt. life).

MEH / WPD flowmeters

- multi-jet & Turbine types.
- running mechanical total.
- ideal for gravitational flows or low pressure applications for irrigation.
- sizes 15-50 mm, 50-300mm.
- ±2.5% accuracy.
- optional pulse output.

MRTU4 resettable flowmeters

- Insertion paddlewheel type.
- LCD shows **LARGE total** in Litres, closing lid resets count.
- for water transfers.
- sizes 20-100 mm.
- Multiple pipe types.
- ±2.5% accuracy.
- Internal Lith-battery

MES resettable flowmeters

- nutating disc type.
- LCD shows Rate/Total Litres, closing lid resets count.
- for water/chemical batching.
- in sizes 20-40 mm.
- ±1.5% accuracy.
- internal Lithium battery (10+ year battery life).

also available in pulse output versions

KMS - AC, DC & Battery powered magnetic flowmeters

- Show flowrate and running total (optional-resettable).
- sizes: 15 – 250mm.
- ±0.5% accuracy.
- Suitable for effluent
- For dirty water
- Higher spec. models for aggressive liquids.

KMS703 & WPD flowmeters NMI-M10 Pattern Approved

FRT303 Indicator *

- LCD shows Flowrate, Total (resettable) & Grand Total. IP65 enclosure
- internal Lithium battery (6+ year battery life).

RPFS-L paddlewheel type flow sensor

- inductive coil pulse output.
- various adapters available to fit to PVC/Gal/poly pipe sizes 20mm >.

Agricultural Applications:

- Irrigation Channels
- Pump performance monitoring
- Sprayer Irrigation Systems
- Nutrient Dispensing
- Water Batching for Cattle Feedlots
- Truck Loading and Discharge

SMP Magflows

- Magnetic type.
- LCD rate + total.
- No moving parts
- ideal for dirty water
- sizes 25, 50 & 80mm.

Chemical Measurement :

- Flowmeters for chemicals
- Dosing applications
- Pulse Output & Display type

MES / MM / CMM

- Precision pulse outputs
- PD & Magnetic

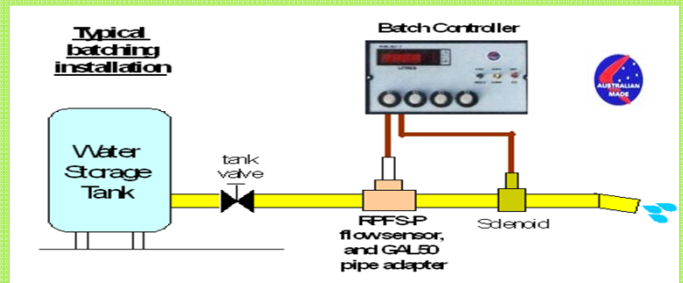

Process Control:

- Batch Controller Systems
- Raw Water Pump Stations
- Rate-of-flow Indication / mA outputs
- PLC input scaling cards
- Custody transfer ticket printing options.

ME995-series Batch Control Systems

Water Applications:

- Potable Water
- Bore Water Measurement
- Golf Course & Park Water Management
- Wastewater Effluent
- Wastewater Management

RPFS Insertion Paddlewheel Pulse flowmeters

- Suits pipes 20 to 500mm.
- NPN 5-30vdc NPN or
- Contact closure volt-free
