

# Irrigation Flowmeters

- ☺ Ex-stock items.
- ☺ Economically priced products.
- ☺ Free on-going product and application support.
- ☺ Instant personal service and phone support.
- ☺ Simple to use, proven products.
- ☺ Australian-owned company.
- ☺ Over 45 years in the business.
- ☺ Flowmeter and process control experts.

## MRPU5 resetable flowmeter \*

- paddlewheel type.
- LCD shows total Litres, closing lid resets count.
- for water batching.
- in sizes 20-315 mm.
- $\pm 2.5\%$  accuracy.
- internal Lithium battery (5-10 year battery life).

## MEH flowmeter \*

- multi-jet type.
- running mechanical total.
- ideal for gravitational flows or low pressure applications for irrigation.
- in sizes 15-50 mm.
- $\pm 2.5\%$  accuracy.
- optional pulse output.

## MEH flowmeter \*

- turbine type.
- running mechanical total.
- ideal for gravitational flows or low pressure applications for irrigation..
- in sizes 80-300 mm.
- $\pm 2.5\%$  accuracy.
- optional pulse output.

## MES resetable flowmeter

also available in pulse output versions

- nutating disc type.
- LCD shows total Litres, closing lid resets count.
- for water/chemical batching.
- in sizes 20-50 mm.
- $\pm 1.5\%$  accuracy.
- internal Lithium battery (5-10 year battery life).

## SMP and SM battery powered electromagnetic flowmeters

- Shows flowrate and running (non-resetable) total.
- mm sizes: SMP 25-80, SM 80-250.
- $\pm 1\%$  accuracy.
- Powered by 2x replaceable internal Lithium D batteries (typically 5 year battery life).

## FRT303 Indicator \*

- LCD shows Flowrate, Total (resetable) and Grand Total.
- internal Lithium battery (5 -10 year battery life).
- IP65 enclosure.

\* optional pulse output available in addition to display

## RPFS-L paddlewheel type flow sensor

- inductive coil pulse output.
- various adapters available to fit to PVC/Gal/poly pipe sizes from 20mm.
