## ME6008M Batch Monitor Printer Driver Unit

### Batch Log

Provides multi-channel batch printout for manual concrete batch plants.

- ☺ Monitors/prints up to 8 channels of admixture or water.
- ☺ Provides an automatic QA end-of-batch printout, for use in manual concrete batch plants.
- ☺ Internally logs at least 500 batch events.
- ☺ All records are time stamped from the unit's Real Time Clock, and have a Batch Number ID.
- ☺ Connects between Flowmeters/Batch-Controllers and serial printers (or between Flowmeters/Batch-Controllers and PCs via Hyperlink software).
- ☺ Grand Totals and the Batch History can also be printed (or dumped to a PC) on demand.
- ☺ Fully programmable, and the user can set parameters including K-Factors (i.e. pulses/Litre, to scale the pulses received from each attached flowmeter).
- ☺ Simple to install - same size as the ME995-series Batch Controllers, and has the same cutout.
- ☺ ManuFlo can also supply a LX300+II dot matrix printer for printouts.

5% discount until  
31 March 2009!
