

MRP20-T2 *reset counter flowmeter*

for concrete truck mixers, slumpstands and plant water.

- Designed for the concrete industry.
- Built to last and to endure industry conditions, with all gunmetal or aluminium construction.
- Durable marine grade alloy paddlewheel.
- Virtually no maintenance.
- Tested, trialed and proven.
- Calibration certificate supplied.
- Full one year warranty.

The **MRP20-T2** paddlewheel resettable flowmeter is manufactured by **ManuFlo**[®], a 100% Australian-owned company with over 45 years experience in flow measurement products. The majority of our products are designed and used for the premix concrete industry. MRP20-T2 resettable flowmeters are tailor-made for the environment of mobile concrete truck mixers (agitators) and plant slumpstands transit mixers / slumpstands.

Most other flowmeter types quickly fail in the harsh conditions experienced when mounted on transit mixers / slumpstands. MRP20-T2 flowmeters, however:

- resist severe water hammer conditions;
- can be run at high flow speeds without damage;
- can measure mild-recycled/bore/dirty water without blockage;
- are impervious to sudden pressurised air blasts; and
- no filters are necessary.

	
MRP20-T2 Agitator Truck flowmeter	MRPU5-GAL25M Slumpstand flowmeter

Over the last 15 years, **MRP20-T2** paddlewheel reset flowmeters have proven themselves for durability, reliability and performance. Now over 10,000 units are used by Boral, Hanson, Holcim, Hymix, Ready Mixed Concrete HK, Trumix-Beton and a range of Independents.

Update your concrete delivery truck or slumpstand with an MRP reset flowmeter and save on ongoing maintenance and replacement part costs compared to other models. A quality calibrated flowmeter like the **ManuFlo**[®] **MRP20-T2** installed on your truck or slumpstand can help you win important government supply contracts.

For a full description of flowmeter performance, features and specifications, datasheets are available (on request, or from our website at www.manuelectronics.com.au) on:

- **MRP20-T2** flowmeter for agitators;
- **MRPU5 type** flowmeters for slumpstands/plant water.

<u>Order Code</u>	<u>Description</u>	<u>Flowtube</u>	<u>AUD\$ Price (Jan 2012)</u> <u>excluding delivery and GST</u>
MRP20-T2	3/4" BSP(m) threaded both ends	Gunmetal	\$ 458.00
MRPU5-GAL25M	1" BSP(m) threaded both ends (MRPU5 also in 32, 40 & 50mm sizes)	Gal. T-piece	\$ 548.00
-P	Optional 1 pulse/Litre IP67 pulse output		\$ 109.00
